Interest Keen Up to and Including The Closing Session,

AUTHORITIES SUSTAINED.

Closing Address by President Smith Finds a Ready Response in the Hearts of All Present.

The closing session of the general conference yesterday afternoon was marked by the same degree of interest which characterized all the meetings. The attendance, all things considered, was highly gratifying, and the remarks made and business transacted were in exact accord with the spirit of the entire conference. The closing address, delivered by President Smith, was especially impressive and found a ready esponse in the hearts of all present, singing by the choir and congrega-

ELDER MARRINER W. MERRILL. of the quorum of the Twelve, was the first speaker. He thought that this had been an extremely good conference. We had received reports from the remotest stakes of Zion, President Smith, he said, had given

some good texts for the brethren to speak upon. Our boys needed to be taken care of. Not that all of them taken care of. Not that all of them should be trained in technical schools, but there are other things to learn than the trades taught here. At presthan the trades taught here. ent it is difficult to get skilled labor hat is the result of our own training. We are just beginning to turn our at tention to the need of skilled work which is the product of our own makng. The fruits of this will be reaped a years to come. There is no need or our boys to go elsewhere for emally there must be training to prepare We should teach our boys trades, and then they will not lack reunerative employment.

He spoke also of the necessity of teeping out of debt. Those who are in debt, the speaker said, should get out of it as soon as they could. And the best way for the Saints to pay their debts is to pay their tithing first. Those who are not in debt should resolve now, once for all, not to go in debt. cople should learn to live within th means. Some of our young people imagine that they cannot marry unless hey have a house well furnished to begin with. This is a mistake. The young who have reached a marriage shle age should marry, but should not go in debt to obtain what is not really necessary, but only a luxury. The speaker bore his testimony to the truth

ELDER ALBERT R. It requires a long time to visit the various branches in this stake, owing to the distances sep-arating them. The quorums of the Priesthood are united. He believed that the people in this stake were the best in the Church. Many of the most il-lustrious men in the Church had lived there. There were only about half a dozen mortgages in the entire stake. The people were trying to put their affairs on a cash basis. He asked God's blessings on the conference.

ELDER GEORGE OSMOND, President of Star Valley stake of Zlon, reported the condition of affairs in the district over which he presided. The stake was organized in 1892, out of the Bear Lake stake. said that he had been delighted with the subjects spoken of during this conference, as well as the reports given. He believed that in conducting the conferences in this way the original pur-pose of the Lord in having these general conferences was carried out. Another reason for this manner of conducting reason for this manner of conducting conferences was that the Saints and the world should know that thre are a great many men who are leaders of the Church. We have fewer lay members than any other religious body. Upon this vast army of priests and kings unto God rests the responsibility of maintaining the dignity, the honor, and the sacrednes of the offices conferred upon men. Every man in the Church who men. Every man in the Church who holds the Priesthood, is a pillar in the Church. He is also a staunch citizen in this nation, which God has raised up by the power of His hand that the Gospel might be preached to all the world. The Lord has established this nation, and He will make it the greatest in the earth, that we might be free to think and act in righteousness. This Church will be a close backing to the nation. There are no more loyal people to the nation than the Saints. There are none who will sustain the glory and honor of the nation better than the Saints. of the nation better than the Saints. President Smith declared that our government has not persecuted the Saints, but rather wicked men who are enemies to truth and morality—men who have lied about them. There are some men who seem to be born to lie, and they are true to their mission. But let these men go on lying, we must do right, establishing our purpose to be true Saints, and good citizens of our grand nation. The Gospel will progress, notwithstanding the many falsitles connation. The Gospel will progress, not-withstanding the many falsities con-cerning us. Men cannot do anything against, but for, the truth. The truth will be manifest by the very contrast with those slanders. We deplore the evils in the land. Latter-day Saints do not sustain saloons and other evil institutions. Only men who have a standing in the Church, or no membership at all, will sustain saloons. If there be any who claims a standing in the Church, who runs a saloon, the best thing to do is to cut him off from the Church, that all may know where he

President Smith bore a strong testimony to the Gospel and the divine hand that has sustained this great work. This is not the work of man, for no man ould do what we see in our history but the Lord has done it all. It does not matter what men may say about us. We shall do good to them that injure us, all that we can to protect the

rights of men.
President Smith said in explanation of what he had remarked about the lying that infests our land, that he did lying that infests our land, that he did not mean honorable men. There are, he said, honorable men among us and in our nation, and he prayed that God would bless them. We would always sustain honorable men wherever they might be. But he referred only to those who wifully uttered lies against others for purposes of evil. These we would not sustain nor affiliate with. The choir sang:

HOLD MEETING

Discuss the Utah Lake Reservoir Scheme With Much Freedom.

PROSPECTS FOR HARMONY.

hances Are Conflicting Interests May Get Together- Holdaway Would Build a Dyke.

The Utah lake reservoir question was pushed ahead last evening at the special. meeting held in the office of the state engineer in the McCornick building, so that it begins to look as though at last there would be some satisfactory solution of the difficulty. Senator Smoot presided and there were present Senator Kearns, Governor Wells, State Engineer Doremus Irrigation Commissioners West and White, Messrs, Keeler, Farrar, Farley, Snell and thinkley, representing Utah county, William Nelson average M. Smoot, A. N. Holdaway and other interested citizens, so that the room was well filled. An evening's discussion brought out the fact that the timestrated county. zens, so that the room was well filled. An evening's discussion brought out the fact that the engineering ameunies could be overcome; that there is a good opportionty for the harmonization of the apparently conflicting canal interests; that Utah county will not object if alleged vested rights are not interrered with.

The state engineer held that the Utah lake project was the best one in sight, and he had been told by Prof. Newell that there is still money in the treasury avadaole for irrigation purposes and Utah lake would be cared for. Among the called that there is still money in the treasury avadaole for irrigation purposes and Utah lake would be cared for. Among the called that there is not provided the compromise point matter. But Roger Parrer for Utah county to yield the compromise point matter. But Roger Parrer for Utah county declared the compromise point would not be surrendered, that the earrying out of the original proposition from salt Lake to raise the level of the lake five feet would swamp the surrounding country and induce malaria. However, there would be no objection to dredging the lake. Utah county people were suspicious of Sait Lake.

Air. Holdaway proposed running a dykeneric and south through the lake at the party and south the party and south the party and the par

Lake.
Air. Holdaway proposed running a dyke north and south through the lake at its center and thus reclaim 60,900 acres of land. This would cost not to exceed a million and a half, but the improvement would justify the outlay. But it seemed agreed that when Prof. Newell arrived and consultation was had with him, the situation would be clearer. The irrigation commissioners are meeting today, with the state engineer.

HOLDAWAY'S PLAN.

In detail Mr. Hollaway's plan involves the following features: He would build a dyke 90 feet wide at the bottom. 30 feet wide at the bottom. 30 feet high, beginning at the point of the mountain on the south, and dividing the lake north and south, and ending just east of the head of the feature tiver approximately 14 miles the Jorgan river, approximately 14 miles in length. The entire east half of the in length. The entire east half of the lake with be drained by draining across the level country with ruil drain live miles long, emptying into the Jordan, in fact using the Jordan most of the way. This scheme will drain 50,000 acres of land, leaving the west half of the lake for reservoir purposes. Now in order to bring the Provo river into the reservoir it would be necessary to build a levee from some fact that east of the eastern shore four miles to the dyke. To drain the southern part of the reclaimed land, it will also be necessary to build a culvert under the river leyee near the dyke.

Then in order to direct the Spanish Fork Then in order to direct the Spanish Fork around the dyke, it could be run between Benjamin and Salem, and striking the lake at the point of the mountain. American Fork creek can be directed into Alpine creek and the two directed into the make at the point of the lake outlet. The reservoir water could be used for the upper canal service, and the drainings water for the lower canal service. The idea is to use the soil from the drain excavation for dyke construction, thus reducing the cost, it is estimated that the evaporation of 25,000 acres of lake area would supply the Jordan system, as it now supply the Jordan system, as it now stands. Hence 50,000 acres would make three times the present amount, and would make all the water necessary to supply all the available arb land in the Salt Lake valley. Mr. Holdaway claims that this plan does away with the controversy which has obtained for so long between Salt Lake and Utah counties over the compromise point level, and in-creases the valuation of Utah county by

COLORADO STOCKMAN KILLED

Jo . I. Meenan's Body Was Found

Riddled with Bullets. Akron, Colo., April 7.—The bullet rid-dled body of Joseph I. Meenan, a wealthy stockman, who lived alone on his ranch northeast of this place, has been found lying on the prairie within a short distance of his house. It is believed that he was shot from ambush Friday night, as he was returning home from visiting his brother, another cattleman, and that the killing was the result of a feud. For some time trou-ble has broken out at intervals among the range men over the question of the right to use the range, and in December last Meenan and a rancher named John Irwin engaged in a pistol duel. Irwin being fatally shot. Meenan was so badly wounded that he was in the hospital several months. It is said that following this encounter threats were made against Meenan's life. Meenan was very popular in the neighborhood in which he lived and feeling is strong against the shooting.

ORIO ELECTIONS.

Republicans Made Gains, Not Many

Changes in Administration Secured Cincinnati, O., April 6.-While the Republicans made material gains in the municipal elections today, they did not secure many changes in the administration of the cities. The most notable ex-ception was at Columbus, where Mayor Hinkle, Democrat, is succeeded by Robert H. Jeffrey, Republican, with a plurality of 1,500. The mayors of all the leading cities except Columbus were elected. The Republicans elected Fleischmann in Cincinnati by 16,000. The Democrats of Cleveland chose Tom Johnson by 7,000, and Samuel M. Jones

for the fourth time as mayor of Toledo. The Democrats re-elected their tickets at Dayton, Sandusky, Chillicothe, Ham-ilton and other cities normally Democratic, and the Republicans at Steuben-ville, Youngston, Warren, Ironton, Portsmouth and other towns that they have heretofore controlled. The fusion tickets as a rule were defeated in a dozen or more cities where they were in

Johnson of Cleveland will now become a formidable candidate for the Democratic nomination for gov-ernor a few months hence and that the Ingalls organization will be continued, with a view of making Mr. Ingails the Democratic opponent of Hanna for

senator.

There is much gossip here tonight about the incipient boom of Mayor Fleischmann for the Republican nomination for governor. It is conceded that the indorsement of Mayor Fielschmann's administration mainly produced the result in Cincinnati, the largest plurality on the largest total vote in the history of the city. Owing to his large business interests he had declined re-nomination, but after the fusionists nominated M. E. Ingalls, the nomination was forced upon Fleischmann. The Republican gains in Cincinnati were not maintained in the numerous suburbs. where about the usual party results

were reported.

Ill Treatment of German Soldiers. Berlin, April 7.-The numerous instances of the ill treatment of soldiers by officers and non-commissioned officers have caused Emperor William and the sovereigns of the individual states of Germany to unite in special measures to put a stop to it. The text has just been made public of an order is-sued on the subject by the heriditary Prince of Saxe-Meiningen, commander of the Sixth army corps, who advises the soldiers to lodge complaints when they are ill used. He says:

Officers must explain frequently to the soldiers that it is neither the wish of his majesty and their other superiors, nor does it correspond with the reasonable feeling of self-respect of privates, that they silently tolerate ill treatment. If soldiers do not report ill treatment it is well nigh impossible for their superiors to take steps for their protection and call to responsibility the efficers guilty of cruelties. Soldiers really encourage through their slience the rough treatment given them contrary to the rules, and in the course of time this becomes force of habit."

DREADED DYSPEPSIA

HAT is dyspepsia? Failure of the stomach. Failure to do what? Failure to digest food. Why does the stomach fail to digest food? For many reasons: Because it was born weak or has been made weak. Because the food is indigestible. Because of work or worry or exhaustion

or a thousand and one causes. They all end in the same thing. You have dyspepsia. That is enough. Anyone who has dyspepsia only cares to know the cause in order that they may find the cure. There is no use in your running around after this doctor and that, and having your complaint called heart disease by one, and nervous prostration by another, and kidney trouble by a third, and collapse of the vital powers, cancer, consumption and what not by the rest, when, after all, it is nothing more than chronic dyspepsia and liver inaction that ails you. Kickapoo Indian Sagwa will cure you and quickly too just as it has thousands of such cases. If you are skeptical read these convincing endorsements.

" For the past four years I have suffered with Stomach troubles. I tried the best physicians here and three at Springfield with very poor results. When I commenced taking Kickapoo Indian Sagwa, I had no faith in it, but I must say it is a wonderful medicine. All the symptoms have left me. I can eat whatever tempts my appetite, with no bad feelings in my stomach; when before, the plainest food would distress me, making life a burden. Now I am all right, and can thank you and cheerfully recommend

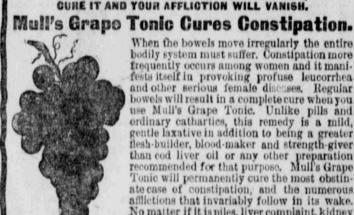

MRS. LEE ROBERTS, ELKHART, ILL. Kickapoo Indian Sagwa to all who are afflicted with Stomach Trouble. No one will ever regret trying it. "-MRS. LEE ROBERTS, Elkhart, Ill.

"About five years ago I used Kickapoo Indian Sagwa for a bad case of Dyspepsia. I can say, it is the best medicine I ever used, as it cured me. I have had no return of Dyspepsia since. I recommend it whenever I can."

MRS. BERTHA MURRAY, Dubuque, Iowa.

Sagwa is guaranteed. If it don't give satisfaction your money will be cheerfully refunded. Druggists everywhere sell Sagwa, 50 cents and \$ 1 a bottle.

Constipation more frequently occurs among women and it manifests itself in provoking profuse leucorrhea and other serious female discuses. Regular bowels will result in a complete cure when you use Mull's Grape Tonic. Unlike pills and ordinary cathartics, this remedy is a mild, gentle laxative in addition to being a greater flesh-builder, blood-maker and strength-giver than cod liver oil or any other preparation recommended for that purpose. Mull's Grape Tonic will permanently cure the most obstinate case of constipation, and the numerous afflictions that invariably follow in its wake. No matter if it is piles, liver complaint, kidney

disorder, vertigo, palpitation of the heart, diarrhea or the self-poisoning which follows when the undigested food remains in the bowels where it putrefies and empties highly diseased germs into the blood, such as typhoid and malaria, Mul's Grape Tonic will positively cure. Large sample bottle will be sent free to any address on receipt of 10 cents to cover postage. by the Lightning Medicine Co., Rock Island, Ill. Send name of your lruggist. All druggists sell Mull's Grape Tonic at 50 cents a bottle.
